

# Greenwood Kinder Buzz

Sarjapur  
January, 2016

## Communiqué from Greenwood High

All Children are born unique. As children grow, they face impediments. Some are their own creations; others are created by the adults group around them.

A Schools primary aim is to prevent these impediments from taking away the joy of learning from children.

Sometimes the advice of adults is based on their way of thinking, while the inquisitive child thinks differently. It is for us as educators to allow a child to experiment to their true potential.

Making our children a part of our decision making always augurs positivity. Children learn quickly by the mistakes they make and given an opportunity can also participate in the solution process.

## Parent Resource Corner

**Raising the new generation depends on what is the relationship between you and Your Child?**

Today's society has changed the family pattern and so has parenting. Even if conflict is a part of every relationship, there are certain things we can do to make sure they are minimal at best. Most important is to show and teach empathy. This will develop great confidence in you. Be careful—No Comparisons . . . Especially between siblings. Once you are able to build the basic trust, discuss and design DO'S and DON'T'S. Make the child familiar with rules by demonstrating and discussing. Simple suggestions for parents to raise smart kids:

- ▶ Lots of love works like Tonic.
- ▶ Leisure family time is cherished lifelong.
- ▶ Learn together for smart and faster learning.
- ▶ Design the limits together to reinforce discipline.
- ▶ Enjoy and nurture to rediscover your childhood.

## Teacher's corner

What makes a great teacher?

At the end of the last school year, Teens Health asked students, "What makes a great teacher?" More than 3,000 high school students took our poll. They picked these three most important teacher qualities:

- ▶ The teacher explains things well and makes the subject interesting.
- ▶ The teacher is funny and has a lot of personality.
- ▶ The teacher is helpful with things other than class work.

Making Schoolwork Interesting – and Fun!

Not only are students more likely to pay attention if information is presented in an engaging way, but the information is easier to understand and remember. Humor helps things stick in our minds. So teachers who tell good stories can make subjects easier to relate to. All of this helps students do better and enjoy school more.

## Classroom Humour

Q: The Bay of Bengal is in which state?

A: Liquid.

Q: If you had three apples and four oranges in one hand and four apples and three oranges in the other hand, what would you have?

A: Very large hands.

Q: What happened when wheel was invented?

A: It caused a revolution.

Q: Why it is impossible to send a telegram to Washington today?

A: Because he is dead

## Recipe of the month:

Gujia is a popular sweet dish of north India. Gujia recipe is associated with the festival of Holi.

Ingredients :

- ▶ 1 kg Khoya
- ▶ 500 gms Sugar
- ▶ 500 gms Maida
- ▶ 200 gms Almonds, chopped
- ▶ 6 tbsp Cooking oil
- ▶ 3 tbsp Raisins
- ▶ 200 ml Water

How to make Gujia:

- ▶ Combine maida with 6 tbsp of oil using your fingers.
- ▶ Make soft dough and knead it lightly. Add water if needed.
- ▶ Cover with a wet cloth and leave aside.
- ▶ In a frying pan, deep-fry the khoya till light brown in color.
- ▶ Add chopped almonds, sugar and raisins and mix well.
- ▶ Fry again for few minutes. Allow the mixture to cool.
- ▶ Prepare a small and thick chapati from the kneaded dough.
- ▶ Stuff half of the chapati with the khoya mixture.
- ▶ Fold and draw the edges of chapati inwards to close.
- ▶ On slow fire, deep-fry the gujia till golden brown.
- ▶ Take out using a sieve and drain the oil properly.
- ▶ Store them in an airtight container.
- ▶ Repeat the procedure with remaining dough.

## Events

The "Annual Day" celebration held on the 11th of February 2016.
